

NOTICE TO CUSTOMERS

American Electric Power plans to maintain a portion of its power line rights of way in West Virginia through aerial application of registered herbicides. Weather permitting, the program will begin on or about June 1, 2020.

Questions about the program or information about sensitive areas near the power lines listed below, such as springs, wells, streams, lakes, ponds, orchards, crop areas, gardens, pastures, meadows, year-round dwellings, public recreation areas, and Christmas tree farms, may be directed to the company by calling toll-free **1-800-642-3622**.

Right-of-way maintenance agreements between the company and landowners are available to those preferring to accept responsibility for clearing the right of way crossing their property in lieu of aerial herbicide applications. Such agreements provide for compensation equivalent to the cost of aerial herbicide maintenance, provided the work meets the company's specifications.

Landowners desiring to enter into right-of-way maintenance agreements with American Electric Power should call the toll-free number above, or contact the nearest office as listed below. Maps showing the location of rights of way to be maintained in their areas also are available for inspection at these offices.

Herbicides to be used have been extensively tested and are registered by the U.S. Environmental Protection Agency and the West Virginia Department of Agriculture. They are glyphosate, imazapyr, metsulfuron methyl, fosamine, triclopyr, aminocyclopyrachlor and aminopyralid. All applications are performed by certified applicators.

Rights of way involved in the program are:

HANCOCK COUNTY

Arroyo-East Liverpool 138 kV – A transmission line on wood poles beginning at the East Liverpool Station in Ohio and crossing the Ohio River. The line then runs southwest for seven miles and ends at the Arroyo Station along Race Track Road.

Complaints about possible damage resulting from herbicides may be made by contacting the company at the above toll-free number or the local office listed below. Complaints may also be directed to the Department of Agriculture, Pesticide Regulatory Programs Unit, which may be contacted in Charleston at 304-558-2209.
