

IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER
MONITORING REQUIREMENTS NOT MET FOR
TOWN OF MONONGAH, WV3302515

Our water system violated drinking water monitoring requirements within the past year. Even though these were not emergencies, you, as our customers, have a right to know what happened and what we did to correct the situation.

We are required to monitor your drinking water on a regular basis. Results of regular monitoring are an indicator of whether or not our drinking water meets health standards. During periods listed in the table below, we did not monitor or test as required and therefore cannot be sure of the quality of our drinking water during that time.

What should I do?

There is nothing you need to do at this time.

The table below lists the monitoring we did not conduct, how often we are supposed to sample and when the samples should have been taken.

Required Monitoring

Required Monitoring Frequency

Compliance Period

SOC group monitoring
of specific analyte:

HEXACHLOROCYCLOPENTADIENE

Yearly

01/01/2019 to 12/31/2019

Disinfectant By-Product (DPB) sampling.

Monitoring for Haloacetic Acids (HAA5)
and Trihalomethanes (TTHM) (Type 27)

Quarterly

07/01/2019 to 09/30/2019

Failure to Correct Significant Deficiencies
Identified during Sanitary Survey

When Due

Due date was 01/03/2020
Due date was 10/16/2020

What happened? What is being done?

The first two items are due to a paperwork error and miscommunication between the laboratory and the WV Office of Environmental Health Services. All sampling was done in the required time frame, correct location, and met all state drinking water standards. The third item listed above was due to the deficiencies not being corrected by the state guideline date. All deficiencies have been corrected at this time under the project upgrade that was just completed.

For more information, please contact Frank Vandetta at 304-363-8812 or 430 Bridge Street, Monongah, WV 26554.

Please share this information with all the other people who drink this water, especially those who may not have received this notice directly (for example, people in apartments, nursing homes, schools and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.
