PLEASE TAKE NOTICE: That at a duly held meeting, The Board of Education of the County of Roane adopted and entered of record the following Excess Levy Order:

After full consideration thereof, The Board of Education of the County of Roane [West Virginia] (the "Board"), being of the opinion that the levies for current expenses authorized by Article 8, Chapter 11 of the Code of West Virginia, 1931, as amended, will not provide sufficient funds for the payment of general current expenses of schools in Roane County, West Virginia, including expenditures for the purposes hereinafter stated, during the fiscal years beginning July 1, 2024, July 1, 2025, July 1, 2026, July 1, 2027, and July 1, 2028, and having ascertained that the approximate average amounts hereinafter shown in excess of the amounts raised by regular levies will be needed by the Board, subject to variations from year to year, during each of said five (5) fiscal years, and that the question of increase of such levies should be submitted to the voters of Roane County at a primary election to be held on May 14, 2024, in accordance with applicable law, it is hereby ORDERED and DECLARED that:

6. In the event that the actual amount collected is less than the amounts noted for the above-stated purposes for any one or more fiscal years, the Board is hereby authorized and empowered to determine, in its discretion, which one or more of the above-stated purposes shall be reduced for each such fiscal year, and the amount of each such reduction for such fiscal year; provided, that the total of all such reductions shall not exceed the amount of such collection shortfall each year.

PUBLIC SERVICE COMMISSION OF WEST VIRGINIA CHARLESTON

CASE NO. 24-0274-E-PC
 APPALACHIAN POWER COMPANY and WHEELING POWER COMPANY

Petition for Consent and Approval of Cost Recovery for three purchased power agreements for renewable energy.

NOTICE OF FILING AND EVIDENTIARY HEARING

On March 6, 2024, Appalachian Power Company (APCo) and Wheeling Power Company (WPCo) (together, the Companies) filed a Petition with the Public Service Commission of West Virginia (Commission) seeking the recovery of future costs associated with APCo's agreements to purchase renewable energy products from the Elliot, 7 Bridges, and County Line solar facilities. The Companies' Petition is on file with and available for public inspection at the Commission's offices, 201 Brooks Street, Charleston, WV 25301, and at the Commission's website, www.psc.state.wv.us.

The Commission has set an evidentiary hearing in the matter for August 21, 2024, starting at 9:30 am, to be held in the Howard M. Cunningham Hearing Room at the Commission's offices, 201 Brooks Street, Charleston, WV 25301. Interested persons may attend the hearing and will have an opportunity to make public comments.

The purchase of the aforementioned renewable energy products can be expected to ultimately impact the Companies' West Virginia retail rates at some point in the future. The Companies do not expect these transactions to lead to any significant increase in customer rates. Rather, the Companies project that the transactions will reduce customer rates over the lives of the solar facilities.

The Companies have a Renewable Power Plus (RPP) Tariff to be offered on a voluntary basis to all customers in addition to the Companies' standard tariff offerings. It is anticipated that, over time, the costs of the proposed renewable

facilities will be offset by the customers subscribing to the RPP Tariff, special contract revenues, and the cost-of-service benefits produced by the facilities. The costs of the renewable energy PPAs with the solar facilities are proposed to be recovered in expanded net energy costs (ENEC) rates.

The renewable facilities have varying in-service dates, but the Companies project that rates would increase by approximately \$1.3 million, on an aggregate basis after offsets, during a hypothetical first year that assumes all three facilities are in service, as shown in the table below. Such rates will likely be phased in as of the date of the Companies' annual ENEC rates for the Elliot, 7 Bridges, and County Line solar facilities. The estimated rate increase in the hypothetical "Year 1" for each of the Companies' tariff classes is shown in the table below. By way of example, a residential customer using 1,000 kWh per month would experience a net monthly increase of \$0.12.

"Year 1" of Proposed Portfolio Estimated Rate Impacts by Tariff Class						
Tariff Class	Current Revenues (000)\$	Gross Increase (000)\$	Gross Increase %	Cost Offsets (000)\$	Net Increase (000)\$	Net Increase %

OL & SL	15,450	61	0.4%	(56)	5	0.03%
Total	1,767,801	17,266	1.0%	(15,926)	1,340	0.08%

* Excludes Special Contract customers who are billed standard tariff rates.

The increases shown above are based on totals for all customers in the indicated class. Individual customers may receive increases that are greater or less than the percentages shown. Furthermore, the requested rates and charges among the various classes of customers are only a proposal and are subject to change (increases or decreases) by the Commission in its review of the Companies' filing.

Anyone desiring to intervene in the matter should file a written petition to intervene on or before June 3, 2024. All requests to intervene should briefly state the reason for the request and comply with the rules on intervention outlined in the Commission's Rules of Practice and Procedure. The Commission will receive public comments until the beginning of the hearing. All written comments and requests to intervene should state the case name and number and be addressed to Executive Secretary, P.O. Box 812, Charleston, WV 25323.
